WORK EXPERIENCE

Capstone Project I : Tourism APP   JAN 2025-MAR 2025

Team Leader + Front-End developer

- **Front-End Development**: manage on the development of the trip planning feature, including the user interface for managing travel itineraries, destinations, dates, and budgets.
- **User Authentication UI:** Developed the front-end for secure login and sign-up screens, ensuring a smooth and intuitive user experience.
- **Team Leadership**: Managed and guided a team of developers, assigning tasks, ensuring efficient progress, and maintaining clear communication across team members.
- **Timeline and Task Management**: Oversaw project timelines, divided tasks among team members, and ensured that deadlines were met.

E-learning for grade 12- School Project   DEC 2024-JAN 2025

Flutter + dart (Personal Project)

- Developed a mobile app using Flutter and Dart to provide educational resources and tools for Grade 12 students.
- Implemented offline features for managing content (Science, Social Science, Tips) and grade calculation.
- Ensured the app is user-friendly, scalable, and provides essential study tools without the need for a back-end.

Front-End Developer – School PROJECT   AUG 2024-SEP 2024

Parking Management System: Ticket Controller Landing Page

- Designed and developed a responsive and interactive landing page for a ticket controller system using Laravel and Tailwind CSS.
- Focused on creating a clean and user-friendly interface to improve user experience and accessibility.
- working with database like insert data to data base and fetch it to show in ftont-end.

E-commerce website—personal project   JAN 2024- FEB 2024

E-Commerce Website - HTML, CSS, and Bootstrap

- Designed and developed a responsive e-commerce website using HTML, CSS, and Bootstrap.
- Created a navigation bar, banner section, and product cards for displaying products with images, prices, and "Add to Cart" functionality.
- Develop footer and copyright.

Database Design and Analysis

JAN 2024 - FEB 2024

Bus Ticket Management System-Team Members

- Inserted data into key tables such as Users, Bookings, Buses, Seats, Routes, PaymentTransactions, and Reviews.
- Tested SQL queries for data integrity, relationship validation, and performance optimization.
- Ensured accurate data entry for various relationships including one-to-many and many-to-many.

Student Struggle to Choose the Right Major—School Project

Team Members- Figma project
NOV 2024-DEC 2024

- Designed a homepage for a platform aimed at helping students choose the right major.
- Homepage also details all of the major recommendations.
- Focused on user experience (UX) to ensure easy navigation and clear presentation of options.
- Used Figma for designing wireframes, prototypes, and high-fidelity mockups.

Member of E-robot

AUG 2023 - JUN 2024

Team Member - Graphic Designer

- Design posters: I design all kinds of posters of e-robot, making sure they look good and communicate the right message.
- Create quotes: I create designs that feature inspiring or promotional quotes, making them visually appealing.
- Do anything related to posters: I take care of all tasks related to posters, from concept to production.
